# A Note to Students

Have you ever wanted to play piano or keyboards in a band with friends? Write down your own songs? Play piano for a singer in a school talent show? The **Pro Piano Skills** section will help you learn to do all these things and take your piano studies to the next level! You'll learn:

## Lead Sheets

**LEAD SHEETS** - You'll build on what you learned about lead sheets in the Lesson Book and learn to play several familiar pieces.

## Chord Charts

**CHORD CHARTS** - When you know how to play from chord charts, you can sit down at the piano and start playing just by looking at the chord names on sheet music, such as pop or rock sheet music. You need this skill to play in a band, sing songs while you play piano, or accompany other singers.

Improvisation

**IMPROVISATION** - Did you ever hear a pianist in a band "jamming" and making up the music as they went? That's improvisation! You'll learn jazz, rock, and other types of improvisation.

Composition

Notation

**COMPOSITION** and **NOTATION** - Learn to compose your own pieces of music and properly write it all down (notation). This way, you can remember what you composed and even have other people play your pieces!

# A Note to Teachers

**Pro Piano Skills** takes students beyond the printed page and puts them on the path to becoming well-rounded musicians. Some of the skills help develop a more social type of musicianship—such as playing in a band or accompanying a friend by using chord charts. Going further than reading traditional music notation gives students a greater overall appreciation and understanding of music, and makes playing the piano even more enjoyable and relevant to students' everyday lives.

## About the Lead Sheets and Chord Charts

The lead sheet and chord chart activities are intended to provide extra practice for developing the skills introduced on pages 3 and 15 of Lesson Book, Level 3.

Before each **lead sheet**, a **Chord Review** provides a quick refresher of the specific chords used in the lead sheet (in the order that the chords appear). As the units progress, various LH rhythm patterns are suggested to expand the student's lead-sheet-reading abilities. Consider these suggested patterns jumping off points. Students should feel free to improvise other rhythms and patterns when they are comfortable doing so.

Each **chord chart** has an optional teacher part, which provides the melody to be played above the student's *comping* (chord accompaniment). The lyrics, given in both the student part and teacher part, can be sung by the student, teacher, or both. Students should be encouraged to sing or hum the familiar melodies as they practice comping.

Triad *inversions* are introduced in Unit 4 of **Pro Piano Skills**, to allow for smoother chord progressions in the comping activities. (Inversions are formally introduced in Level 4.) Chords in *1st inversion* are indicated by a superscript **1** next to the chord symbol in the chord chart; chords in *2nd inversion* are indicated by a superscript **2**. Note that this shorthand notation applies *only to the RH chord*; the student should play the root of the chord in the LH. In Unit 5, *slash chords* are introduced, allowing the student to use notes in the bass other than the root of each chord.

## About the Improvisation Activities

Five of the units contain an improvisation activity to be played with the teacher in the lesson. Students are given a set of notes plus various rhythm patterns that serve as a starting point for their improvisation. Stress the importance of repeating various rhythm patterns and note combinations while improvising. Accompaniments for these improvisations are written out. Feel free to simplify or expand upon them. To begin each improvisation, start the accompaniment and have the student jump in at any point when they're comfortable.

So that students may continue practicing improvisation at home or in a lab setting, there are also *Improvisation Play-Along Tracks* that can be found along with the MP3 recordings for the level. There are no count-off clicks. Students hit play (▶), feel the beat of the music, and begin improvising when they're ready. Students don't have to improvise all the way through the tracks; the recordings give ample time for experimentation and practice, as the music loops for a few minutes.

For full flexibility controlling the play-along track tempos, import the MP3s to a device, and use an app that allows you to vary the speed while retaining the same pitches. Variable-speed playback apps are available for various operating systems and devices.

## About the Composition and Notation Pages

The **Composition** and **Notation** pages develop and add to the skills students learned in the Activity Sheets from Levels 1A–2B. Students should apply the skills they learn in the notation sections (proper music spacing, correct placement of articulations, etc.) to the pieces they write in the composition sections.

THIS PAGE INTENTIONALLY LEFT BLANK  
(for those printing front/back)

**RIGHT SIDE**

- ✓ Practice the RH melody. (Notice the key signature.)
- ✓ Play the **Chord Review** with your LH.
- ✓ Then, play all the chords in the lead sheet.
- ✓ Finally, play the lead sheet hands together. Each time you see a chord symbol, play and hold the chord with your LH while your RH plays the melody.

### Chord Review

## Auld Lang Syne

Traditional Scottish Melody  
 Words by Robert Burns

Moderately slow

*mf* Should auld ac-quain-tance be for-got and nev-er brought to mind? Should

**6** auld ac-quain-tance be for-got and days of auld lang syne? For

**10** auld lang syne, my dear, for auld lang syne, we'll

**14** take a cup of kind-ness yet, for auld lang syne.
